

divider.system RPD | Variable compartment division for bw.cases

Description

- Variable compartment division
- available for bw.case PP.41 – PP.709, except for PP.162, PP.210
- Individual adaptation of the compartment layout to different needs, e.g. drone or camera
- Individual solution for every area of application
- Reliable, qualitative and safe
- Thanks to Velcro & loop, the different bars can be easily configured again and again
- padded case insert is made of waxable fabric material and is therefore easy to clean
